SafetyPoint Lite

Welcome, Jessica Lindahl  0  1

My Account

- Profile – make profile changes
- Account Statement – details all earned points and any point redemption activity

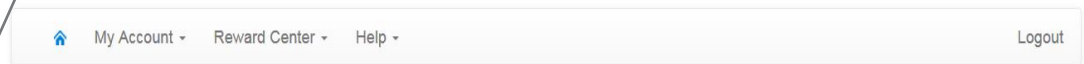

Reward Center

- Provides access to the award catalog and ordering process

Help

- Contains FAQ document, Contact Us and Program Rules

Client Branding and Communication areas

Welcome to the CenterPoint Light Rewards and Recognition site!

Here you can deposit points into participant accounts or upload them all at once simply by including a description of why you are awarding them points for specific behavior.

This site was created to make your award issuance process and redemption experience as enjoyable as possible. Enjoy!

Account Statement

Welcome, Test Test  0  1

HAMMACHER SCHLEMMER

Commuter's Electric Bike

7959-1150194 - This is the electric bicycle that provides riders with a suite of advanced features for a safer commute. Its LCD illuminates the current speed, indicates voltage left on its battery, and indicates when its headlight, rear light, and turn indicators are active, keeping a rider's attention on the road instead of controls. Dual rear-view mirrors ensure maximum road visibility. The bicycle's 500-watt electric motor propels up to two riders weighing up to 300 lbs. to a maximum speed of 20 mph. Dual 18" pneumatic tires grip the pavement for confident turns and the front and rear disc brakes enable quick stops. A storage compartment beneath the seat locks to keep valuables secure, and the bicycle can be locked to a bike rack or parked on the street like a scooter. The 48-volt lithium-ion battery powers the bicycle for up to 40 miles after a five-hour charge via the included AC adapter. Its pedals also deploy for human-powered propulsion (and recharging) for unlimited range. 69" L x 26" W x 41" H
